TRIBUTE TO ELIZABETH “BETTY” F. MOULDS

I write this in honor of our retiring Executive Director, Elizabeth “Betty” Moulds, who has served our organization for 23 years. The breadth and depth of Betty’s talents is astounding. Betty writes and does legal research so that our by-laws and formal processes are always in order. She works with all of our caucuses with respect and a cooperative spirit. When we consider the enormous work of negotiating spaces and places to hold our conference, our team, under the leadership of Betty Moulds, is incomparable. Unlike some of the other regional conferences, our conference requires that we hold to our democratic ethos—so we rotate the regions in which we hold conferences. It would be easier to choose one city and one hotel and stick with it. Betty, however, does not do anything the easy way. She does everything the right way.

As we have grown, we have faced challenges in our commitment to righteous causes. One presented itself at last year’s annual meeting in San Diego. The owner of the property occupied by the Hyatt Regency in San Diego donated funds in support of the California Anti-Gay Marriage Amendment. Betty demanded that the Hyatt management immediately meet with us. The Hyatt responded quickly and satisfactorily in reassuring us that they would extend every courtesy to our LGBT members. Betty Moulds is tough, efficient, and professional. Those of us involved in conference programs know that members, program chairs, and presidents sometimes offer harsh criticisms. Betty never holds grudges, and she never loses her “cool.”

Betty Moulds, with all of her professional, personal, and leadership skills, is an exuberant, fun, and caring human being. She and her husband, John, travel extensively, and can tell stories of these travels as no one can tell them. Yes, it has been a full half-life for Betty. Now she will take on new projects, as this is her nature. We thank you Betty, for sharing your talents, your warmth, family, and your very essence, with this organization. We will never forget you.

WELCOME AND SPECIAL ACKNOWLEDGMENTS

Welcome to the WPSA's 2009 Annual Meeting. We extend a warm welcome and hope that the weather cooperates and allows you to see Vancouver's great natural beauty.

Vancouver is the largest city in Western Canada. Surrounded by the Coastal mountains and the Pacific Ocean, it is one of North America's most beautiful cities, and it was recently ranked by the Economist as "the world's most desirable place to live".* Vancouver is a complex, diverse and multicultural city. It has grown rapidly in response to immigration from abroad and from other parts of Canada. Vancouver's recent development has also been accelerated by the city's role as host to the 2010 Winter Olympic and Paralympic games.

Vancouver is an apt setting for the theme for this year's WPSA conference -- "Ideas, Interests and Institutions". The city itself embodies and 'lives' many of the issues that will be discussed here.

During your stay, we hope you can enjoy Vancouver's many delights and attractions. As the conference's host institution, the University of British Columbia's also welcomes you. The University hopes you can visit its spectacular main campus at Point Grey in Vancouver. The UBC campus offers a variety of activities including the Museum of Anthropology, Pacific Spirit Park, the Botanical Gardens, and Chan Centre for Performing Arts.

The Hyatt Regency is located in the downtown core, which offers the amenities of a major international destination including outstanding restaurants, clubs, parks, recreational facilities, entertainment, arts, and culture. Near the downtown core, you can walk around the seawall, visit art galleries and explore historic parts of downtown such as Gastown and Chinatown. This program includes our personal restaurant recommendations.

On behalf of UBC, we are pleased to welcome you to Vancouver. We know the conference will be a tremendous success! Thank you for joining us!

Special Acknowledgements

The Western remains one of my favourite meetings in political science. The meeting has a friendliness that everyone who attends recognizes. It has an open-ness to different perspectives and approaches that everyone who attends appreciates. The reason that the Western has this 'feel' about it is due to the people running the conference itself.

Allan Tupper and UBC were in charge of local arrangements and did a simply splendid job in making those arrangements workable. The Canadian government has also helped in these arrangements by very generously providing funding to help a number of graduate students travel to the meeting.

All conferences depend on their section chairs to perform what is the often thankless 'behind the scenes' task of organizing panels. At the very least I'd like to thank them here for the terrific job they have done. Our section chairs, all of whom we list in the programme, have done an excellent job in putting together an interesting range of first rate panels that will show case research conducted by Association members.

I would also like to note a personal thank you to Andrea Simpson – my predecessor – for her advice, help and perhaps most of all her encouragement. Thank you Andrea – you helped more than you may have realized.

I am, as Peter Steinberger once said, only the latest programme chair to express my deep appreciation and thanks to the hard work, the thoughtfulness and grace of Elsa Favila and Betty Moulds. Peter's comments are as on the mark now as they were when he made them. I think many of us know the Association owes a debt to the dedication of Elsa and Betty in keeping our organization running smoothly. Only after becoming embroiled in the details of the programme did I grasp how large that debt is and how much we owe to their hard work, dedication and their invaluable sense of humour. Thank you both very much indeed.

The academic enterprise often lends itself more readily to criticism than praise but I hope you will join with me in thanking our section chairs, Allan, Andrea, Betty and Elsa.

The Theme for the 2010 Meeting ***POLITICS IN THE MAELSTROM OF*** ***GLOBAL ECONOMIC CRISIS***

As Marx and Engels famously observed about their own era, during periods of epic and often catastrophic change, “all that is solid melts into air.” Today we witness the collapse of the global credit economy, a crisis in global capitalism, a chastened consumer capitalism, renewed scrutiny of “the market” as an adequate and appropriate venue for the allocation of goods, services, and values, and an American recession in full regalia, replete with massive layoffs, housing foreclosures, bank failures, decimated retirement accounts, and significant projected reductions in public spending for social services, including higher education. How should political scientists proceed with research, teaching, the training of graduate students, and robust critical inquiry during this era of economic crisis? And how should the crisis itself -- its causes and its solutions -- be rendered? For Marx and Engels, the meltdown they observed

signaled the possibility for new articulations of possibility, even as it engendered tragic consequences for those caught up in the juggernaut of crisis-induced change. What are the opportunities, the risks, the challenges, and the temptations for political inquiry and political vision during this era of economic crisis?

These are complex, daunting, timely, and urgent questions for the contemporary discipline of political science, which has enjoyed a close, if also troubled, and troubling, relationship with economics. We invite political scientists of all methodological persuasions and subfield affiliations to submit panel and paper proposals that relate to these broad themes and questions. The following questions are not intended to be exhaustive, but rather suggestive: How does the current economic crisis strengthen or undermine the predominance of neoliberalism as a rhetoric and practice of political rationality? What theoretical frameworks can best account for the fiscal and economic policies enacted since the crisis began? Will economic scarcity crowd out demands for global justice or could it spur mobilizations of new actors and new politics? How have the responses (and non-responses) of policymakers informed our understanding of the relationship between domestic politics and the global economy? To what extent does the current crisis create or reduce space for the articulation of other-than-economic expressions and intimations of the political?

To the extent that critical examinations of consumerism tend to figure “the consumer” as a passive, feminine figure, how might feminist scholars interrogate the critique of consumerism? What is the potential impact of economically-inspired distribution-focused rhetorics and policies on environmental politics, GLBT politics, race and ethnicity politics, and feminist politics? To what extent will the economic crisis restructure international politics, empowering new actors and creating opportunities for fundamental transformations? Will increasing economic competition lead to trade wars or real wars? How will “the politics of recognition” fare in an era of economic crisis? How should we be thinking about the appropriate scope and limits of market-inflected paradigms for the study and theorization of contemporary politics? What are the alternatives? Will (or should) the economic crisis lead to a reassessment of prevailing theories and methods in political science?

Note: All participants in the program are required to preregister for the meeting by early December.

GUIDE TO VANCOUVER RESTAURANTS

We, Lesley Burns and Rebecca Monnerat, local arrangement assistants at UBC, recommend several of our favorite restaurants in Vancouver -- not an easy feat, as Vancouver is a city that prides itself on its wide variety of world-renowned restaurants. The neighborhoods are divided into areas within the Westside and Eastside, as well as areas in Downtown Vancouver. We provide our own comments, cross-referenced many restaurant reviews*, and solicited tips from UBC Faculty "foodies".

Lesley's favorites are highlighted in *italics*, Becca's are underlined. Those in italics and underlined are favorites for both. An asterisk next to the restaurant's name suggests a family-friendly place. Some restaurants have other locations as well (some listed in italics at the end of the comments). For more directions grab a map from the concierge. The BC transit web site can give you directions from point to point. Visit www.translink.bc.ca and pop in an intersection or a postal code.

We hope we've managed to narrow down some excellent choices for you, and that you enjoy eating and visiting Vancouver! *We looked at *Vancouver Magazine*, www.dinehere.ca, www.foodvancouver.com, www.vaneats.com, www.frommers.com, and www.vancouverrestaurantguide.net.
